

Kickstart a career dedicated to improving health and improving lives.

Who We Are

At Labcorp, we believe in the power of science to change lives. As a leading global life sciences company, we deliver answers for crucial health questions—because we know that knowledge has the potential to make life better for all. Through our unparalleled diagnostics and drug development capabilities, we provide insights and accelerate innovations that not only empower patients and providers but help medical, biotech and pharmaceutical companies transform ideas into innovations. Join our team of 70,000+ and you'll help serve clients in more than 100 countries as we work together to make a real impact.

What We're Looking For

Are you a student studying STEM or healthcare? Join our 2022 internship programme and play a role in improving health and lives across the globe. The UK Internship programme is a 1-year placement.

Visit our careers website to apply online and search for "internship." We begin accepting applications in fall of 2021.

INTERNSHIP HIGHLIGHTS

300+
internships
completed around
the world in 2021

Interns have supported trials and testing around COVID-19

2021 internships included both lab and office-based opportunities

“Having experienced both sides of Labcorp Drug Development, I can't express how rewarding it is. As an intern I learnt valuable skills that helped me in my career. As a manager I am fortunate enough to work with some very talented interns and help them develop their skills and confidence.”

Lewis, Manager, SAS Programming

GROW YOUR CAREER

This is more than work experience. It's the chance to collaborate alongside world-renowned experts on projects that actually make a difference.

And they aren't just brilliant—they're accessible, friendly and eager to share their knowledge.

We also support your growth with:

- Network exposure
- Project-based work
- Mentoring and job shadowing
- Professional development workshops
- Philanthropic outreach projects
- Executive leadership series
- End-of-programme presentations
- 22 days paid annual leave
- Employee assistance programmes
- Employee discounts

Now it's your turn. You can discover a powerful start to your career and make a real difference for patients—supported by worldwide leaders in drug development. **Join the pursuit.**
