WHAT WE DO

Cytiva is a global provider of technologies and services that **advance and accelerate therapeutics**.

Our products are used by pharma companies, biotech researchers and clinicians around the world to make life-saving vaccines, biologic drugs and cell and gene therapies.

WHO WE ARE

Our brilliant people are our greatest asset – and there are a few things that unify our Cytivians across our company.

We **care deeply** about our team-mates and colleagues, regardless of where they sit and what team they are in.

We are **self-starters** who want to learn, grow and develop ourselves and those around us. Going above and beyond for partners and customers.

What connects us all is our **passion for helping people**. We all want to achieve our vision of a world in which access to life-changing therapies transforms human health.

Sound like you? Then join us!

Take your
next step to
an altogether
life-changing
career.
