Video (:26)

My name is Jaz and I am the first shift shipping supervisor. What makes me proud to work here at Kohl's is just that family feeling that you get. We have fun. We get things done. We have standards and we basically make everybody proud so it's nice being a part of that. Kohl's has a great tendency to help you out where you need it. They will make sure you have time with your family. Kohl's is a great company to work for so I would recommend it to anybody!
