

**Distribution Center - Day in the Life | Kohl's**  
**August 31, 2021**

[Upbeat Music]

[Jaz] I knew Kohls was the place for me to grow within probably a week of being here with the company.

[Talie] We have goals that we need to reach, but they will train you and get you to the right place at the right time. Our team works together. They communicate well. That's really what the success of the business comes to.

[Emmanuel] We wanna make sure we hit our current goals. We wanna make sure we our unit out goals, clearing out the X amount of trailers, the X amount of units, and making sure that everyone leaves here safe.

[Sean] It's a physical job. I've met a lot of great people. Management on site have been very supportive in my success.

[Brad] The pay is good. The benefits are good. When the pandemic hit, we were able to keep our insurance. And that was huge.

[Syria] We do have a wellness center here to call onsite, and it's free to associates and their families. I get my kids physical here. I will definitely recommend as a great perk to have.

[Jaz] So many people who started out as a material handlers and worked their way up to being a supervisor. They'll coach you into being and doing whatever you wanna do.

[Donnell] I found someplace that I can be myself. I can do the work, it's because they have helped me. I have built my life. I was able to do all the things that people dream of doing because the people here helped me to build it.
