

## **WHOLE FOODS MARKET**

### **Next-Level Tools**

00:00:05

FEMALE: I feel like Whole Foods is a startup in a 40 year old company. I think there's still definitely radical ideas happening every single day.

00:00:13

MALE: You can no longer be a great retailer without a heavy investment and continue to invest in technology.

00:00:21

FEMALE IN LONG SLEEVE BLACK SHIRT: I also think it's an exciting time to join Whole Foods because we're learning so many new things from Amazon. We are moving faster. We have new ways of working that we would've probably never tried before.

00:00:31

MALE 2: I think working with Amazon has opened up opportunities to collaborate with other Amazon businesses.

00:00:37

FEMALE IN LONG SLEEVE BLACK SHIRT: We're building. We're building technologies. We're building teams. We're building roles.

00:00:42

FEMALE IN TURQUOISE NECKLACE: I think for Whole Foods, we got to leapfrog from a technology standpoint but also kind of a data standpoint.

00:00:47

FEMALE 2: It's an exciting time where we're all learning together right now.

00:00:51

FEMALE IN MUSTARD SHIRT: And there's just even more that we can do. The future of what we can make with technology enable experiences is infinite and so exciting.
